

Good morning my name is Elijah Smith. I do believe that Jesus Christ is the eternal Son of God, I do believe that Jesus Christ was physically born of the virgin Mary according to the scriptures and I do believe that Jesus Christ died for our sins, that he was buried, and that he rose again on the third day. I believe the **Bible** is God's perfect word.

Now altho I haven't had a moment with God I know He is still with me in everything I do day to day. Since the passing of my Uncle Aaron I have really been feeling God's comfort and love towards me and my family. so we can get through this tough time not just by ourselves but with god and family and friends. I feel like my relationship with God is strong and will get stronger the older I get and the more things I do in the future. And in the future I will keep in touch with God and will not stray away from him and his love.
